TA250T/TA250U Load Chart		
Desired Axle Weight @ Ground (lbs)	TA250T PSI REQUIRED	TA250U PSI REQUIRED
5000	15	13
10000	37	33
15000	59	52
17500	70	62
20000	81	72
22500	92	82
25000	103	92
Literature # W&C231		
REV 06/20/2017		

The values above are based on the standard units mounted at the designed run height. These values are approximations and will vary, especially if used at a different mounting height than for which the suspension was designed.

These weights are based on the axle, wheel equipment (duals), and tires (duals) weighing 1700 lbs., which also varies.
