## STEERABLE LIFT AXLE SUSPENSION SYSTEM

# SL

## SL20K

The **SL20K** sets our standard as a robust and innovative steerable lift axle maintaining the durability and features that you have come to expect from Watson & Chalin. This steerable lift axle delivers exceptional maneuverability with 25 degrees of wheel cut. It features adjustable ride height and frame width for installation and/or inventory versatility.

- 20,000 pound suspension capacity
- Ride heights up to 14 inches
- Package space: 26.5 inches
- Compatible with 445/65R22.5 tires
- Hub face of 89 in. for better body clearance
- 5-year limited warranty\*

\* Contact your local Watson & Chalin representative for complete warranty terms, conditions and limitations.

**For more information, call 800.445.0736**

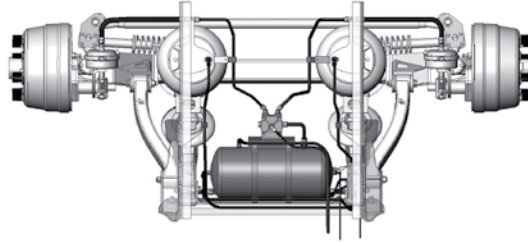

*Watson and Chalin is a brand of Hendrickson*

## Value-added options and critical dimensions

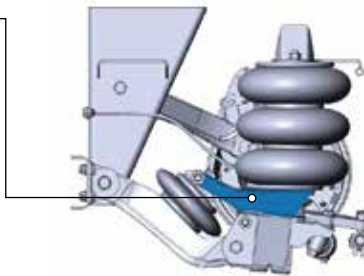

### Pre-Plumbing System

- Fewer fittings reduces leak potential
- Better response when air is engaged
- Helps save time and money during the installation
- 100 percent leak tested at the factory

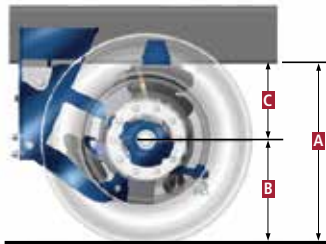

### Ride Height Adjustability

- Accomplished through interchangeable lower air spring plate
- Can also be used to limit lift if ride height and driveline clearance fall within allowable criteria

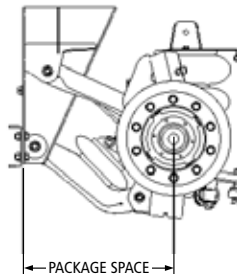

### Ride Height Measurement Concept

- A.** Loaded Ground To Frame (GTF) Measurement
- B.** Static Loaded Radius (SLR) of tire
- C.** Ride Height ( $A - B = C$ )

### Package Space Dimension

Actual product performance may vary depending upon vehicle configuration, operation, service and other factors.  
All applications must comply with applicable specifications from Watson & Chalin and the respective vehicle manufacturer.  
Contact Watson & Chalin for additional details regarding specifications, applications, capacities, and operation, service and maintenance instructions.

Contact Watson & Chalin at 972.547.6020 for additional information.
